Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 16-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 01/05638 in view of Messersmith.

Re claim 16-22, WO 01/05638 teaches a vehicle driveline parking brake assembly comprising, a stationary driveline component (17) that remains stationary relative to a portion of the vehicle, a braking member (not shown but disclosed as connected to 7) associated with a movable driveline component such that the braking member remains stationary relative to the moveable driveline component, an engaging portion (7) associated with the stationary driveline component, the engaging portion selectively movable into a braking position where the engaging portion engages the braking member, a spring (5) that biases the engaging portion into the braking position and an electrically powered actuator (29) having a portion (11) that engages the spring and selectively moves the spring and releases the engaging portion out of the braking position. However, WO 01/05638 does not teach wherein the moveable driveline component comprises a driveline shaft and the braking member comprises a drum that is fixed for rotation on the driveline shaft that is rotatable relative to the stationary driveline component. Messersmith teaches wherein a moveable driveline component

Art Unit: 3683

(17) comprises a driveline shaft and the braking member comprises a drum (16) that is fixed for rotation on the driveline shaft that is rotatable relative to the stationary driveline component. It would have been obvious to one of ordinary skill in the art at the time the invention was made to have used the drum assembly of Messersmith in combination with the brake-applying device of WO 01/05638 since parking brakes are well known for use in drum assemblies.

Response to Arguments

3. Applicant's arguments with respect to claims 16-22 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Laxhuber et al (US 6,774,595) is provided as a translation of the EP document used in the rejection above.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 3683

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melanie Torres whose telephone number is (703)305-0293. The examiner can normally be reached on Monday-Friday, 6:30 AM - 4:00 PM.
